

COVID SECURE – METHOD STATEMENT – STUDIOS

The purpose of this document is to outline our practices for handling and servicing of studios prior to customer arrival to our premises and guidelines during visitor's time on-site.

Studios

John Henry's studios and breakout spaces are utilised by clients only, they are cleaned and sanitised with anti-bacterial sanitiser daily by professional cleaners prior to opening. This includes door handles, switches, tables, chairs, studio equipment and contactable surfaces.

Perspex screens are available for separating musicians, a social distancing zoning system is in place in each Studio. A copy of the plan is available from the Studio Manager.

With current social distancing guidelines our Studios can accommodate the following at one time.

Studio 1 – 6 Performers on stage with 2 Techs on the floor level

Studio 2 – 5 Performers on stage with 2 Techs on the floor level

Studio 3 – 4 Performers with 1 Tech

Studio 5 – 6 Performers with 6 Technical Staff on the floor level

Studio 6 – Up to 10 Performers and Techs

Studio 7 – Up to 10 Performers and Techs (Excluding separate office and lounge spaces)

We are currently operating with new opening and closing times of 9am to 9pm.

Sanitising of microphones and stands

This is carried out before and after each studio hire utilising an Miltons sterilising solution to eliminate all viruses and bacteria.

Ventilation

The studios all have modern air conditioning systems recently serviced with upgraded filters with air flow directed away from the performance area (Air Con Settings - Low = 1,040 Air Cycles per hour / High = 2,850 Air Cycles per hour) and the studios are aired out with external clean air overnight.

Social Distancing

There is a new clear signage system throughout the facility from the entrance to the building through to studios, restrooms, breakout spaces and to the exits.
